

Prairie Regional Turf Spray Program

Greens – Cool Season

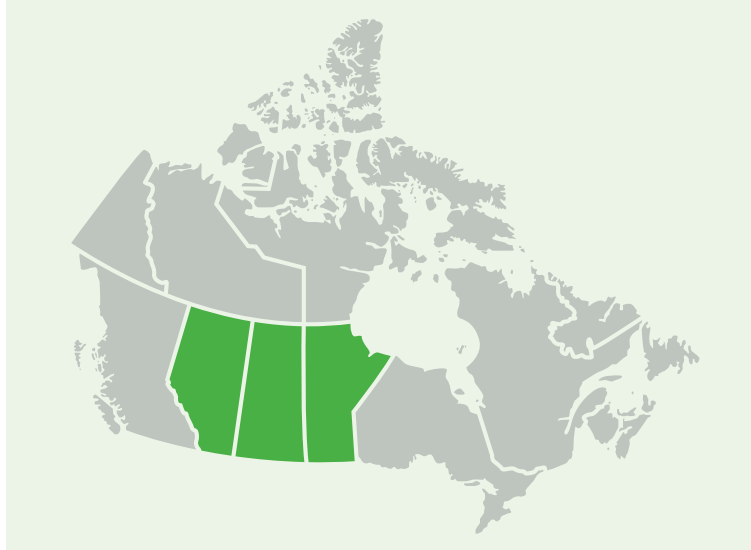

With this geography-specific spray program, superintendents have a customized rotation management plan for disease control. Be sure and include these important rotations in your plan and have strong, resilient turf all year long.

- Intrinsic® brand fungicides provide a strong foundation of **Plant Health Benefits***, including broad-spectrum disease control, stronger roots and higher stress tolerance.
- New Insignia® Pro fungicide combines two trusted active ingredients for long-lasting snow mold control.
- Maxtima® fungicide is a DMI (demethylase inhibitor) that delivers long-lasting disease control of key diseases at any temperature for rotation flexibility and year-round confidence.
